SOURCES: Final Appropriation Act for each biennium (typically "Caboose" bills), Acts of Assembly, Department of Planning and Budget.

NOTES: This table reflects the varying organizational structure and agency assignments of the governor's secretaries over the period. Details will not sum to total appropriations because of omissions. For example, the Judicial and Legislative departments are independent of the executive branch and thus are not shown. The independent agencies, central appropriations, and the Executive Offices also are not under secretariats and thus are not shown. The Revenue Stabilization Fund and the Personal Property Tax Relief program have not been coded consistently over the period; currently they are under the Finance secretariat but previously were in central appropriations. The amounts shown average about 95 percent of the total appropriation each year.

^a \$1.2 billion of this increase is due to a change in the budgetary treatment of ISFs affecting state health benefit services.

^b \$346 million of this increase is due to a change in the budgetary treatment of ISFs affecting IT services provided by VITA.
