

STATE IT INFRASTRUCTURE SERVICES

Update on VITA's Implementation of a Multi-Supplier Service Model, 2020

RECOMMENDATION

Adequacy of network infrastructure ► The General Assembly may wish to consider including language in the Appropriation Act directing the Virginia Information Technologies Agency (VITA) to report annually on whether network infrastructure is adequate to meet the needs of state agencies. The report should specify any needed upgrades to network infrastructure maintained by VITA or its customer agencies. VITA should submit the report to the Joint Legislative Audit and Review Commission, Senate Finance and Appropriations Committee, and House Appropriations Committee by November 1 of each year. (Recommendation 3)
